SPECIAL INSPECTOR- START WORK NOTIFICATION

Prior to the first day a special inspector is scheduled to be on the job site, he/she must do the following:

1. Notify the Inspection Section of the project, date and approximate time he/she is scheduled to be on the job site, and a phone number that he/she can be reached at (preferably his/her cell phone.) This can be accomplished by either calling in the information or completing this form and faxing it to the Inspection Section. This information is needed to coordinate a time when the City inspector can meet the special inspector on site.
2. Fax a copy of his/her qualifications and current driver license/photo ID to the Inspection Section.

The two requirements shown above are also required when a replacement special inspector, other than the originally approved special inspector, takes over the project on a temporary or permanent basis.
